Six- Color "Split" Primary Mixing Chart for Watercolors  
with Libby Fife of Valley Springs

In this one-day class you will learn to make a version of a "split" primary color chart that uses both a cool and warm version of each of the three primary colors in your watercolor kit. You'll learn how to mix a variety of primary and secondary colors as well as some lovely grays and browns (neutrals). The class is designed for beginning watercolorists who are interested in the concept of creating a limited palette to use as a guide in painting or sketching. Limited palettes can help to unify your sketches, express a particular mood or highlight a particular subject, teach you about your paint properties, and are a useful compositional tool. The following colors are suggested and supply a warm and cool color of each hue. Town Hall Arts also sells a beginner's kit of watercolor cakes which you may use.

### Cool/Warm:

- \* Ultramarine blue/Phthalo blue; cobalt blue, cerulean blue are OK for warm alternate colors
- \* Cad red light or pyrole red/quin rose/magenta or Alizarin perm; other versions of warm or cool reds are also acceptable
- \* Azo or cad yellow light/ cad yellow medium; other versions of cool and warm yellows are also acceptable.
- \* Mat board about 8x10 available from Susie/Larry
- \* Ruler, black Sharpie, pencil
- \* Round or flat wash brush-enough to carry a good water and pigment load
- \* palette
- \* Paper towels/water container

Cost of instruction is \$15 with an additional \$2 classroom fee.

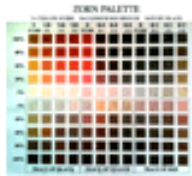

### Copper Art Club

**Wednesday, April 23 • 10 am to 1 pm**

*Watercolor Parrot with Susie*
